

Diamond Graphics Wins Cover Contest Competition

Diamond Graphics emerges as the winner of Printing Industry Midwest (PIM)'s Print Buyers Guide & Membership Directory 2023 Cover Contest Competition.

FOR IMMEDIATE RELEASE: April 6th, 2023

Ramsey, MN – Diamond Graphics, the go-to expert in total solution card manufacturing, is proud to announce that it has emerged as the winner of the Printing Industry Midwest's (PIM) Print Buyers Guide & Membership Directory 2023 Cover Contest Competition, demonstrating our commitment to excellence in both design and printing. The contest was open to PIM members, and our team's winning design was selected by a panel of industry experts.

"The idea behind this year's cover design was playing with the concept of time and looking into the future with the telescope," said Sydney, the cover designer. "The little boy admiring the beautiful night sky and stars that are illuminated through the use of print enhancements, symbolizes the 2023 theme 'Print is the Future.'"

Diamond Graphics is honored to have been chosen for this award and grateful for the recognition of our design work.

At Diamond Graphics, we strive for excellence in everything we do, from design to manufacturing and distribution. Our hard work has paid off, and we are thrilled to share this news with our valued customers and partners. We thank PIM for the opportunity to participate in this contest, and we look forward to continuing to deliver exceptional products and services to our clients.

About Printing Industry Midwest:

Printing Industry Midwest (PIM) is the trade association for the printing and graphic communications industry in the Midwest. PIM provides advocacy, education, and networking opportunities for its members, as well as resources and tools to help them grow their businesses.
