

New Installation of Heidelberg XL106 Press

Diamond Graphics is thrilled to announce that our new Heidelberg XL106 Press is installed and running.

FOR IMMEDIATE RELEASE: May, 2023

Ramsey, MN – Diamond Graphics, the go-to expert in total solution card manufacturing, has completed the installation of its new Heidelberg XL106 Press, one of the most advanced commercial printing presses on the market. The press is expected to bring significant benefits to the company and its customers, including faster turnaround times, superior quality, and increased production capacity.

The XL106 Press features automated plate changing and wash-up systems, advanced color control technology, and the ability to print up to 18,000 sheets per hour. The XL106 Press is designed with sustainability in mind, incorporating energy-efficient LED UV drying technology, reduced ink consumption systems, and features designed to minimize paper waste and water usage.

The installation of the XL106 Press represents a significant investment for Diamond Graphics, demonstrating the company's commitment to staying at the forefront of the industry by investing in the latest printing technology. With this new press, Diamond Graphics is well-positioned to continue providing high-quality commercial printing solutions to its customers, further enhancing its reputation as a leading printing company in the region.

Stay tuned for more updates and photos as we continue to push the boundaries of what's possible in print.
